8. Total Due for Late Payments ($15 late fee charged)
9. Mailing Address
10. City Message

Negative Balance (Credit): If your utility bill shows a negative amount in the “Amount Due Now” section, this indicates that your account has a credit balance. A credit means that the account has been overpaid, and you have a credit amount which will be applied towards future bills. It does not mean you owe this amount. In addition to the negative amount, your bill will say “Credit Balance”.

Current Rates can be found in the City’s Fee Schedule.
