Bill date: October 10, 2022
For the period: September 07, 2022 to October 06, 2022

Message Center

This bill reflects an increase in the Delivery and Supply portions of your bill, effective on and after October 1, 2022. The change in the Delivery portion is due to the introduction of a Gas Conservation Incentive Program Charge and an increase in the Balancing Charge, offset by a decrease in the Societal Benefits Charge. The change in the Supply portion is due to an increase in the Basic Gas Supply Service (BGSS-RSG) Commodity Charge. As a result of these changes, a residential customer who uses 100 therms in a winter month and 610 therms annually, will see a monthly increase of $27.11, or approximately 26.43%. Tariff information can be found at pseg.com.

This bill reflects an increase in the Delivery portion of your bill, effective on and after October 1, 2022. This change is the result of adjustments to the Societal Benefits Charge. As a result of these changes, a typical residential customer who receives electric Supply from PSE&G and uses 740 kilowatt-hours in a summer month and 6,920 kilowatt-hours annually will see an average monthly increase of $0.59 or 0.42%. Tariff information can be found at visiting pseg.com.

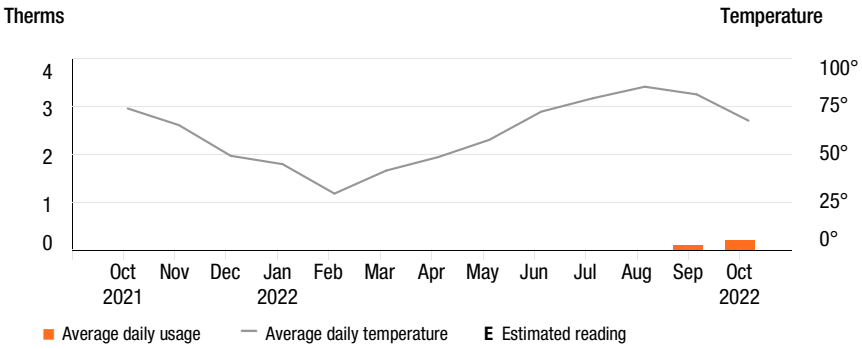
How much gas are you using?



Visit MyAccount for more details regarding your energy usage.

Explaining gas charges

We measure the volume of gas you use in cubic feet (CCF) and then convert it to therms.

If you used a standard gas clothes dryer, it would take about 6 hours to equal 1 therm of energy.

About the balancing charge

The balancing charge includes pipeline, storage and other costs associated with seasonal peaks in usage. It applies from October to May.

Price to compare

If you want to consider getting your gas supply from another supplier, you can compare their price with ours. This month, your cost for gas supply is $2.40 (or an average of 0.45915439 per therm). This *price to compare* varies from month to month, depending on your usage.

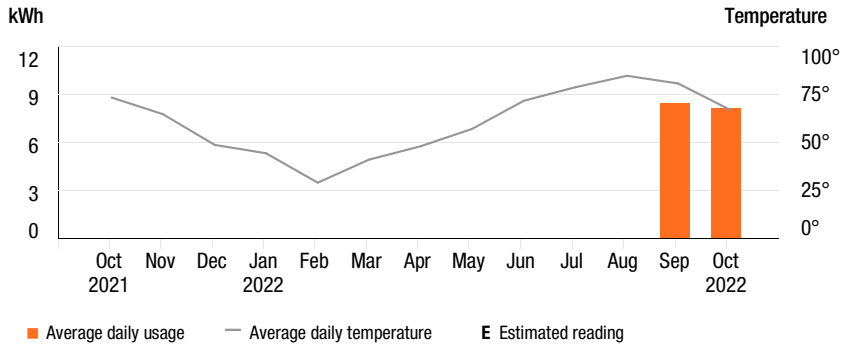
How much electric are you using?



Visit MyAccount for more details regarding your energy usage.

Explaining electric charges

We charge for the electric you use in kilowatt hours (kWh). 1 kilowatt is equal to 1,000 watts.

If you use a standard LCD TV which uses ~150 watts while operating, it would take 7 hours of use to equal 1 kWh.

Price to compare

If you want to consider getting your electric supply from another supplier, compare their price with ours. This month, your cost for energy supply is $26.86 (or an average of 0.113333 per kWh). This *price to compare* varies month to month, depending on your usage.

All deposit payments that are received will accumulate simple interest at a rate set by the Board of Public Utilities. Interest will be applied to residential customers on an annual basis, and biennially for commercial and industrial customers. If residential accounts remain in good standing for 12 months, or commercial and industrial accounts for 24 months, the deposit plus interest will be applied to your account. No interest will be paid for terms shorter than three months and/or after your final bill date.

Please keep this portion of your bill as a receipt for any deposit payments that have been made on the account. Thank you.
